STATES PORTS TO BE AFFECTED BY 100 MILLION BUSHELS Today

Grain Exporters and Shippers of U.S. Form Technical Committee to Try to Solve Difficulties Presented by United Kingdom's Decision.

WASHINGTON, Jan. 12.—Grain exporters and shippers of United States in conference here have formed a technical committee. Its duties are chiefly to try to solve difficulties presented by the United Kingdom's decision to grant the sixteenth bushel English preference on Canadian grain only when it is shipped via an all-Canadian route.

The British treasury's ruling, which was made recently on test shipment of wheat shipped from Port William, via Buffalo and New York, and was shipped on the Lacombe for Liverpool affects about 100,000 bushels annually, American shippers claim.

With the ruling in effect, Canadian growers ship wheat to Buffalo, New York, Albany, Philadelphia, Baltimore, Norfolk and other United States shipping centers, it is claimed.

With United States railroads, export, shipping and exporting interests, protesting against the ruling, the state department has arranged for a conference with representatives of these organizations.

Prior to the conference the British government has been visited by Brubaker, going higher than any other man here to explore the situation again in the cold region of London Bay.

Impounding of 250,000 Pounds of New Zealand Butter Held in Default of F.A. Hopes of Economic Parley

EXECUTIVE OF FARMERS BODY WILL NOT ACT

Telegraph From Undisclosed Source Urges Prevention Further Import

CALGARY, Jan. 12.—Impounding of a quarter million pounds of New Zealand butter now en route to Canada and prevention of further imports was urged upon the executive committee of the United Farmers of Alberta here last night by a telegram from an undisclosed source.

The executive decided to take any action on the request pending the arrival of Robert Gordon, M.P. for Alberta and president of the association who reached Calgary tomorrow to attend the executive meeting which is preparing for the next convention here.

Norman F. Priestley vice president said the information had been given by a source in the United Farmers of Alberta who had purchased a Pacific coast quantity of the butter and asked the U.F.A. to have the authorities impound the butter and prevent further importations because of the threat involved against farmers of the Dominion.

Discussion revolved around the demand that the executive should directly threaten the production in the face of continued imports to threaten the welfare of the Dominion. The executive decided to take any action on the request pending the arrival of Robert Gordon, M.P. for Alberta and president of the association who reached Calgary tomorrow to attend the executive meeting which is preparing for the next convention here.

INSURANCE CO. LIABILITY IS BEFORE COURT

Important Action Heard by Court of Appeal—Judgment Reserved

The question of whether the insurance companies which insured John Beattie's auto for personal liability insurance are liable to pay the judgments which Lena Lindal and Carl Swederger obtained against him, is to be decided by a reserved judgment by the Court of Appeal for three days in hearing the argument in the case, which is of great importance to the insurance companies and their clients. Miss Lindal and Mr. Swederger were injured when Beattie's car hit them on a highway near Zagar Avenue early one morning last winter, shortly after Beattie had been arrested for driving before Mr. Justice Ewing and on judgment was rendered.

When they used the insurance company to insure the car before Mr. Justice Ewing had rendered his judgment, the insurance company refused to pay the judgments which Lena Lindal and Carl Swederger obtained against him. The insurance company claimed that Beattie was not liable for the damages, but the court decided that Beattie was liable for the damages. The insurance company then appealed the judgment, and the Court of Appeal is now hearing the argument.

The police gave the insurance company two weeks, changed his name to John Ewing, and then the insurance company refused to pay the judgments. The insurance company then appealed the judgment, and the Court of Appeal is now hearing the argument.

BETTER WATCH YOUR STEP ON FRIDAY, 13TH

Tomorrow is One of Saddest and Maddest Days of the Year

Watch your step, boys and girls, for Friday is going to be one of the saddest, maddest days of all sad New Year. When the 13th of a month falls on a Friday, all the accidents, misadventures, mishaps, medicine men and crystal galls are unanimous in predicting how plenty grief and trouble for all concerned, and tomorrow is just that. Friday is called a black day. Here are a few of them and don't—Don't get married tomorrow or any other day will be dogged by bad luck.

Don't try and beat a heavily loaded truck on a icy crossing—Don't go out in a rain or hail day. If a black cat crosses your path, cry "Abrahamica" three times in a row and you will have a lucky day.

STAY IN BED If you happen to get out on the wrong side of the bed—after a vicious impression and get back to bed where it is safe. This is a sure way to get results.
